

I-105 Closure 2 Impacts Springfield Morning Commute Most

Motorists from Springfield expecting to use Highway 126 to drive over I-5 to get to Eugene or south toward Roseburg will be redirected beginning, Tuesday, May 31st. I-105 construction resumes work with the closure of the westbound lanes of I-105 (from Springfield to Eugene) over the I-5 interchange, and continues for eight days. Motorists need to be aware of the following:

- Westbound motorists on Highway 126 (from Springfield) will have to exit to northbound I-5 (toward Coburg). Motorists can then take the next exit; Beltline Highway as a detour;
- Westbound motorists on Highway 126 (from Springfield) can not go south on to I-5. Motorists will be rerouted north to the Beltline exit and will then need to take either Coburg Road or Delta Highway.
- Use routes across I-5 farther south like Harlow, Franklin Blvd., and 30th Ave.

This phase of construction is scheduled to be completed Tuesday, June 7.

Help the community reduce traffic delay, congestion, and pollution by carpooling this week a co-worker or neighbor. Every car not on the road helps saves money, time, and the environment.
